**PATENT APPLICATION**

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of

Tsuyoshi KANEKO

Group Art Unit: 2826

Application No.: 10/849,884

Examiner: B. SANDVIK

Filed: May 21, 2004

Docket No.: 119593

For: BUMP STRUCTURE AND METHOD OF MANUFACTURING THE SAME, AND  
MOUNTING STRUCTURE FOR IC CHIP AND CIRCUIT BOARD

**RESPONSE TO RESTRICTION AND ELECTION OF SPECIES REQUIREMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In reply to the May 19, 2005 Restriction and Election of Species Requirement, Applicant provisionally elects Group II, claims 9-16, drawn to a method of manufacturing bump structure, classified in class 438, subclass 613 and embodiment 1, disclosed in Figures 1-4, with traverse. At least claims 9 and 12-16 read on this species.

It is also respectfully submitted that the subject matter of all claims or species are sufficiently related that a thorough search for the subject matter of any one Group of claims or species would encompass a search for the subject matter of the remaining claims or species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). It is respectfully submitted that this policy should

apply in the present application in order to avoid unnecessary delay and expense to Applicant and duplicative examination by the Patent Office.

Thus, withdrawal of the Restriction and Election of Species Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff  
Registration No. 27,075

John S. Kern  
Registration No. 42,719
